

HEADSTART COMMUNITY HUB

AKEB RESOURCES AND SUPPORT

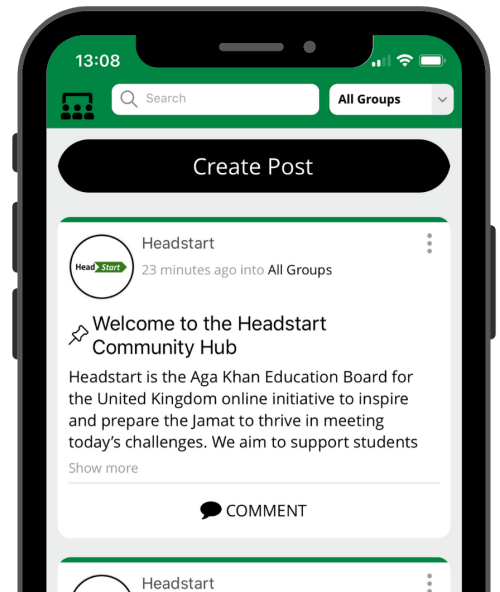

Headstart is the Aga Khan Education Board for the United Kingdom online initiative to inspire and prepare the Jamat to thrive in meeting today's challenges. We aim to support students and parents in their journey through from early childhood, primary, secondary and further education. We are now proud to launch the Headstart Community Hub to further support our community.

Our community hub will give us:

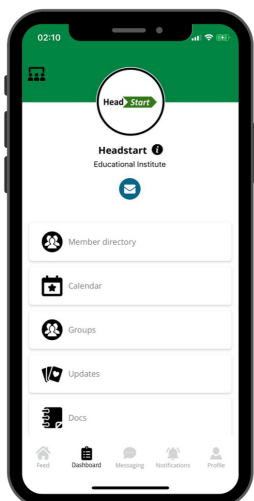

- Provide a central and mobile gateway to access all important resources
- Access calendar to see all important dates
- Alert members to hyper-relevant content via mobile notifications
- Give members control over alerts they receive based on topics of interest
- Create a private and less noisy alternative to social media platforms
- Enhance support through organised resources

Please feel free to share feedback on how we can better support you right now by emailing akeb@iuk.org. For technical queries, please email susan@ugenie.io.
